

Monoclonal antibodies against human PAI-1

Product Nos. ADG3702, ADG3715 and ADG3722

Description

The monoclonal antibodies are murine monoclonal antibodies, subclass IgG₁ recognizing the human Plasminogen Activator Inhibitor Type 1 (PAI-1). Mice were immunized with purified recombinant PAI-1, expressed in a prokaryotic expression system. The antibodies have been purified from cell culture supernatant using Protein A affinity chromatography.

Presentation

Screw capped vial containing 250 µg of purified antibody in PBS pH 7.4. The IgG concentration is given on the vial label. Spin the vial briefly before opening.

Storage and Stability

Store the antibody at 2°-8°C. For long-term storage the antibody should be aliquoted and stored at -20°C or colder. It is recommended to avoid freeze-thaw cycles.

Applications

Product no.	Clone	Known applications
ADG3702	HD-PAI-1 2.1	ELISA, Western blot
ADG3715	HD-PAI-1 15.1	ELISA, Western blot
ADG3722	HD-PAI-1 22.1	Western blot
