

# The latest in **science and research**

Innovative Research has supported labs worldwide for over 25 years, supplying over 50,000 in vitro use samples. From plasma and serum to whole blood, we deliver reliable biologicals with global shipping.

## **CRO SERVICES**

Innovative Research offers CRO services to accelerate your projects with custom lab work, validation, and testing tailored to your needs.

## **HUMAN & ANIMAL CATALOG**

We offer both human samples and a diverse range of animal biologicals to support a variety of research needs.

## **POOLED & SINGLE DONOR OPTIONS**

Choose from both pooled and single donor samples to fit the specific needs of your research.

## **CUSTOM LOTS AVAILABLE**

We offer custom lots for many products, tailored to meet your exact research specifications.

# (CSF) Cerebrospinal Fluid

Innovative Research offers high-quality pooled and single donor human CSF, ideal for neurological research and diagnostic development. Custom lots available.

#### ETHICALLY SOURCED

Sourced from ethical medical remnant samples for high-quality research.

#### PERFECT FOR NEUROLOGY

Ideal for biomarker, drug, and diagnostic studies.

#### STRICT QUALITY CONTROL

Consistent, reliable samples with rigorous protocols.

#### READY-TO-USE SAMPLES

Pooled and single donor human or synthetic CSF for immediate use.

# Immunology and Cytokine Products

Innovative Research offers a wide range of high-quality immunology and cytokine products, including proteins, antibodies, and assays—ideal for immune response studies, inflammation research, and therapeutic development.

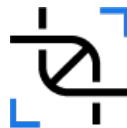

#### WIDE PRODUCT SELECTION

Proteins, antibodies, assays, and more to support diverse immunology research.

#### RESEARCH-GRADE QUALITY

Reliable reagents manufactured and tested for consistent performance.

#### SUPPORTS KEY APPLICATIONS

Perfect for inflammation, autoimmune, and immune response studies.

#### READY FOR ELISA & MORE

Compatible with a variety of platforms, including ELISA, Western blot, and flow cytometry.
